Notes	The course is ONLINE ONLY and uses Strathclyde's Virtual Learning Environment which is called 'MyPlace'.		
M1	Methods of Professional Enquiry is a University requirement for those undertaking postgraduate study. As well as integrating aspects of the subjects above, this Unit provides practical skills in academic research, analysis of evidence, and professional ethics, standards and practice. The Assessment is the Final Research Project, but each session has Assignments, which are milestones towards the Project.		
M2	There are seven tutorial topics, each of which has an Assignment. In addition, a learning log must be completed and submitted.		
M3	This module deals with the understanding, transcription and (occasionally) translation of important classes of older documents and other areas of genealogical research. These, and additional materials, will all be available from the session prior to submission date. There are five Études. The Area Étude could be a parish, registration district, street, village, etc, across time; the House/Building Étude could be an occupied building of any sort, across time, in any location chosen; the Option Étude offers a choice between an emigration/immigration study; a genetic genealogy study; an in-depth palaeographic study; or a heraldic study. The Client Family Étude involves finding a "client" for whom you will construct a professional Family Report. The others are set Document Études, one is a group project.		
Dates	The timetable is based on the standard academic year with time at the end to focus on the final research project. Time is built in for the Christmas/New Year break.		NOTE: Programme may be subject to change

The Year 3 of the part time MSc (the dissertation year) begins 03-Oct-2025 with the dissertation due 01 June 2026. There are interim submission dates for research proposals, drafts and reports. This year is 60 SCQF Level 11 credits (600 hours). See the separate timetables for the full time MSc and the modular versions of the PG Certificate and Diploma.
