Strathclyde University Technology Fair

Exhibitor Guide

 **12th February 2025**

 **1pm - 4pm**

 **CIS Department, Level 11, Livingstone Tower,
University of Strathclyde**

Prepare for the Fair

Before the fair:

- View Exhibitors: Check the exhibitor list and Guide and make note of the exhibitors whom you wish to visit.
- Research exhibitors: Find out what this employer does, their products, their graduate opportunities any recent announcements. Use websites to check the nature of their vacancies and their entry requirements. Think of sensible questions to ask.
- Be Mindful: Think about what you are going to wear. Formal/ smart casual is recommended
- Starting Conversations: Think about how you will introduce yourself confidently to exhibitors. Avoid generic questions like “what do you do?”
- Practice "Promoting yourself": Think about what sets you apart from the competition. What are your key strengths and skills? What are the key things you would like others to know about you? Provide examples.
- CV's: Take CVs if you wish, but it is not vital. Some recruiters may not take them as they require on-line applications. If you do take a CV - be prepared, make sure there are no typos and that all your details are clear and accurate.
- Take notes: Of exhibitor's answers or their names in case you need to follow up later.

On the Day:

- Talk about yourself: - Be positive! - Talk about why you are interested in the company and what you can bring to it.
- When asking questions: - Be enthusiastic - Take notes so you don't forget what the exhibitors are telling you

After the Fair:

- Review your notes
- Follow up on any contacts you've made
- Confirm any dates discussed (e.g. closing dates, company events)
- Connect with any contacts you made on LinkedIn
- Visit the Careers Service at your University for further help

Technology Fair 2025 – Exhibitors

These listings are designed to guide and assist you to make the most of your visit to the Pharmacy Fair 2024. Organisations attending the Fair have provided profiles which include information about their vacancies.

The entries are listed in alphabetical order. Information is correct at the time of publishing.

Company Name:	Alba Orbital
Website:	https://www.albaorbital.com/
Company Bio:	<p>Alba Orbital Ltd is committed to delivering data from Space via our PocketQube Earth Observation Satellites and democratizing access to Space to enable our customers to make informed decisions with dependable High-Resolution Imagery. Pocketqubes are dramatically lowering the cost of flying satellites to Space. We have already launched 47 PocketQube payloads to orbit, flying 7 successful missions with SpaceX and Rocketlab. We currently run a regular launch service for our customers and our own satellites. We have launched over 50% of all PocketQubes flown in Space, which makes us the No 1 PocketQube launcher and manufacturer in the world.</p>
